

# ACC-DTA Infantry and Artillery Branch

- Bradley A4 Option 2 Exercise- PCO: Scott Follen
  - Production to convert A3 vehicles to A4. The conversion is an enhancement to the power pack, mobility, situational awareness and software upgrades
  - Sole Sourced, Exercise Option 2 of existing FPIF Contract
  - AAO: 167 each, TAD 29 May 2020
- Bradley Track and Suspension/Fifth Order- PCO: Scott Follen
  - Procure and install Modification Work Order kits (MWO) (55-Level) and material to Bradley Fighting Vehicles. The MWOs address improvements to the Suspension and Track assemblies that drive the Bradley Fighting Vehicle (BFV).
  - Existing FFP Contract that was competitive, This action is for a noncompetitive delivery order to the base contract.
  - AAO: 414 Each, TAD 18 December 2020

# ACC-DTA Infantry and Artillery Branch

- UBIS (Under Belly Interim Solution)- PCO: Scott Follen
  - The Under Belly Interim Solution is designed to increase survivability and force protection of Bradley Fighting Vehicles. The UBIS is a Kit bottom of the vehicle to enhance survivability against IED's.
  - New FFP Full & Open Competition, Base Year and Option Contract.
  - AAO: 600 Kits including spares, split non proportionally between Base and Option year, Tentative RFP release: 20 April 2021, TAD: 30 November 2021

# ACC-DTA MAV Branch

- Armored Multi-Purpose Vehicles -- PCO: Suzanne Doetsch  
The AMPV is a tracked vehicle in development designed to replace the Army's Armored Personnel Carrier (M113) Family of Vehicles within the Armored Brigade Combat Team. Five AMPV variants (General Purpose, Medical Evacuation, Medical Treatment, Mission Command) will replace the corresponding M113 operational support mission roles.
  - New Non-competitive, five year contract for Full Rate Production; TAD FY22
  - New non-competitive, five year contract for Systems Technical Support: TAD 4Q FY20
  - **Potential Subcontracting Opportunities through the OEM**
